

UniScope

UniScope — your personal financial assistant

We will help you reach your goals quickly and securely in any external environment.

UniScope's mission is to offer valid solutions to financial problems that are beyond the scope of the conventional banking system.

Our experience and expertise expand the capabilities of our customers, enabling them to successfully resolve any issues. From buying foreign real estate to paying for goods abroad.

No risk. No extra charges. No worry.

Payment for real estate abroad

We will help you quickly and safely buy real estate worldwide.

Regardless of the property type and price.

We will ensure a high speed of transactions in dozens of countries and timely receipt of payment by your counterparties

We are fully compliant with legal regulations and minimize associated costs

We guarantee the safety of customer data and legality of digital assets by using the AML/KYC procedures

There are no geographic limits for our customers. They have already acquired ownership of real estate in the UAE, Georgia, Thailand and other Asian and European countries saving at least 4% on bank fees. They have seen for themselves that with our support this is no longer a risky, expensive or time-consuming process.

Payment for cars and spare parts abroad

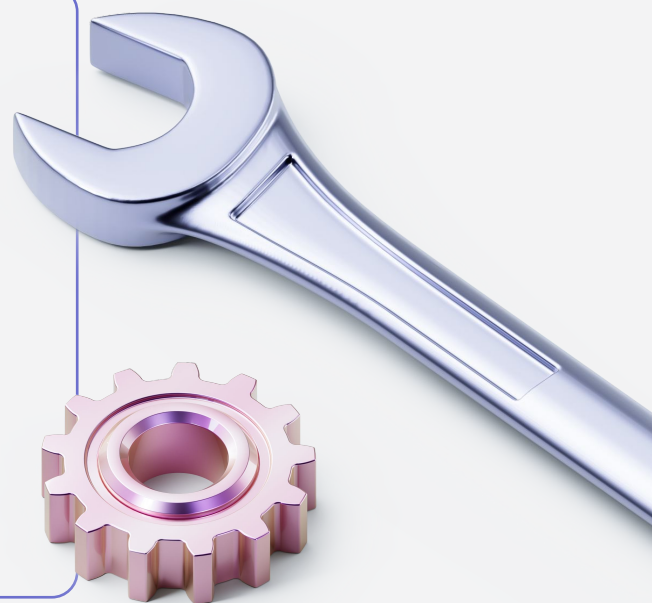

We will assist you with quick and secure purchase of a car abroad using alternative payment methods.

We help with making transactions quickly, regardless of the country, dealer or car brand

We ensure legal safety of transactions through support from experienced lawyers

We reduce costs and protect your assets through the AML/KYC procedures

Our customers become car owners abroad and get help with maintenance services without risk and extra charges.

Money transfers abroad without using SWIFT

We will help you make an international payment quickly and securely to any destination in the world.

We end the support of your transaction only after both parties have confirmed that money has been sent and received

We make sure that your transaction is fully legal and clean and no related risk is involved

We communicate with all the parties to your transaction and help get things done quickly

With us, a transfer without using SWIFT will be completed in just a few hours.

We will guide you through the documents required and will handle all of the challenges involved to solve your problem today.

Payment for goods abroad

We are always in touch, from the point we receive your request to the confirmation of payment by the other party. We advise you on every stage of your transaction and inform you about the progress.

We provide assistance to online stores, marketplaces and entrepreneurs in managing their procurement process

We ensure transparency and security of all operations, regardless of the type and cost of goods

We find the best ways to make purchases and we only work with reliable and trusted partners

We are always in touch, from the point of documenting the terms of service to the confirmation of payment by the other party.

We organize every stage of your transaction and inform you about the progress to keep you updated and confident about the outcome.

Creation of a payroll project for relocants

We will help create a payroll project for your remote employees, IT companies, freelancers and relocants, bypassing banking restrictions.

We organize transfers via various countries with low fees

We ensure transparency and quick processing of transaction without being blocked or tied to a single bank

We guarantee security of transactions thanks to our expert legal support

We solve issues with legal risk and uncontrollable delays in payment of wages.

We also help build a reliable process for sending and crediting money to accounts in any country.

Buying/selling digital currencies

We will help you safely and securely withdraw, sell or buy digital currencies.

We work with digital and cash / cashless fiat currencies using the AML/KYC procedures to make sure that transactions are legal

We always keep information about currency rates up to date and provide calculations of final amounts

We quickly answer any questions and ensure transparency of your transaction for all its participants

We make the exchange process simple, fast and accessible for both experienced and novice users.

We are always ready to help you online or at one of our 30 offices in 8 countries.

We invite you to join our customers who have already appreciated the benefits of working with UniScope.

We solve even those financial issues that seem impossible in the modern context

We fully organize all the processes on an in-house basis without involving intermediaries and are solely responsible for the result

We know not only how to achieve your goals but also how to do this as quickly as possible and with minimum costs

We provide comprehensive security of all transactions thanks to our security team and expert legal support

We are always in touch, ready to answer any questions at any stage of work and provide necessary clarifications

We have organized a reliable, continuous operation both online and in 30 offices in Russia, the UAE, Turkey, Thailand, Georgia, Armenia, Bali and Cyprus
